

ABOUT COLLE MCVOY

Colle McVoy is a full-service agency and Certified B Corp known for building enduring relationships between forward-thinking brands and people. Creating the first AI-powered La-Z-Boy recliner and getting people hooked on eating chicken feed is a casual Monday. Our crew of intrepid thinkers may also be behind why you roam retail store aisles and how you satisfy snack attacks. With midsize moxie, we responsibly boost bottom lines—using our expertise as a force for good to benefit all people, communities and the planet.

YOUR ONE-STOP MARKETING SHOP

Our integrated capabilities include: creative; earned attention, public relations, influencer and social; brand strategy and experience design; production; media, data science and technology specialisms.

POINTS OF PRIDE

Backed by an award-winning culture, we've earned Top Workplace honors 14 years in a row. Named an Ad Age 2024 A-List Standout Agency, Innovation SABREs 2024 Disruptive Agency of the Year and Adweek's 2023 Midsize Agency of the Year, Colle McVoy's nimble talent model is a proven unlock for holistic, creative problem-solving—scooping international and national recognition at the Effies, Cannes Lions, The One Show, Clios, D&AD, *Communication Arts*, *Webbys* and more.
